

This is our puddle.

It is a winter – puddle as it is getting its water from the rain, only.

It is for irrigation purposes, only

בשעה טובה הגיעו "אחרי החגים"

... וגם הגשם ירד ומאגר המים המלאכותי שלנו התחיל להתמלא.

We are very glad, rain came!

Our reservoir began to reserve water.

It is the 28.10.2008 and the first group is out with the kits we got to make the first measurements.

We will take picture of the reservoir to see the water level.

We enjoy this collaborative project
